ORDINANCE # 71

BACKFLOW AND CROSS-CONNECTIONS

Whereas, the (Name of Board, Authority or Utility) Wilsonville Waterworks Company operates a water supply system which serves Wilsonville and certain surrounding areas;

WHEREAS, it is recognized that cross-connetions allowing nonpotable water or other foreignsubstances to contaminate the municipal drinking water supply present an imminent health hazard to both residential and non-residential users of the public water system and the threat of significant economic loss due to disrupted water service to commercial, industrial and institutional water users and the possibility of liabilities that may be incurred; and

WHEREAS, the cost of restoring the public water supply after contamination presents the possibility of a substantial financial liability; now therefore,

BE IT ORDAINED BY THE TOWN COUNCIL

Section 1. CROSS-CONNECTIONS PROHIBITED.

1.1 No person shall install, cause to be installed, or maintain a Cross-connection between any system of piping supplied by water from the potable water supply of the Wilsonville Waterworks and any other sources, or piping or equipment containing water or other substances of unknown or questionable quality that may degrade the quality or present a health or system hazard to the potable water supply intended for human consumption unless such connection has been controlled to the satisfaction of the public water supply.

1.2 No person shall install or maintain a water service connection to any premises where cross-connections to the consumers water system may exist unless such actual or potential cross-connections are eliminated or controlled.

Section 2. AUTHORITY.

2.1 The water provider shall be responsible for establishing a program of cross-connection control that will adequately protect the water supply by isolating at the service connection such contaminants or pollutants within the consumer's water system that may backflow through cross-connections into the public water supply.

2.2 If in the judgement of the water provider the installation of a cross-connection device at the service connection of any facility is required, the provider shall have the authority to require such device and the owner, customer or operator of the facility shall at his own expense be responsible for the purchase, installation, maintenance, and testing of any such devices.

2.3 A failure, refusal, or inability on the part of the customer to install, repair or have tested any required device shall be grounds for discontinuance of water service to the premises until such time as these requirements for protection have been satisfactorily met.

2.4 The water provider shall formulate a written policy or manual and provide such cross-connection control information as needed to assist customers with carrying out the provisions of this ordinance.

The forgoing was first read at the meeting of the Town Council on the 8th day of June 1987 and adopted by the following vote. APPROVED.
